Social Computing, Arabic Natural Language
Processing, Human-Computer Interaction,
Human-Centered Interventions

About Dr. Albadi:

Dr. Albadi is an interdisciplinary scholar with expertise in computational social science, Arabic Natural Language Processing, and human-computer interaction. Her research focuses on analyzing and detecting abusive behavior on social media, with particular attention to understudied communities and user experiences in the Arab world. She holds a Ph.D. in Computer Science from the University of Colorado Boulder and previously served as an Assistant Professor of AI and Data Science at Taibah University.
