

Turnitin, Perusall, BookWidgets, etc.

Faculty to Backup Student Submissions

A number of faculty members use online tools such as Turnitin, Perusall, and BookWidgets which are accessed through a Blackboard course. The access to these tools will be moved from the old Blackboard version to the new Blackboard Ultra version. Content posted on these online services using the old Blackboard may not be accessible once the move to the new version is implemented. Hence, it is recommended to download any student submissions in such courses, if the content will be needed for any future reference. Please take a backup of the content as necessary before the move which is scheduled on **Tue, Dec 30, 2025**.

Faculty members can contact (Tel: 1630) for any assistance.
