

Mr. Ali Hussain Albather

ASA, CFA, CIPM (Investment Risk)

Wisayah Global Investment Company, Saudi Arabia.

Ali Albather, ASA, CFA, CIPM, is an investment risk professional with around ten years of experience across actuarial, consulting, and institutional investment roles. He currently works at Wisayah Global Investment Company, an Aramco affiliate, where his experience includes investment risk, asset-liability management, pension liability modelling, strategic asset allocation, performance analysis, and portfolio risk.

Ali holds a B.Sc. in Actuarial Science and Financial Mathematics from KFUPM. He is an Associate of the Society of Actuaries, a CFA charterholder, and a CIPM certificant. His career has given him experience at the intersection of actuarial science and investment management, providing a practical perspective on how actuarial skills can be applied beyond traditional actuarial roles.

Guest Seminar (Hybrid Session)

From Actuarial Science to Investment Careers

This session explores career opportunities for actuaries in the investment field and how actuarial skills can be applied beyond traditional insurance roles. It will cover areas such as investment risk, asset-liability management, portfolio analysis, and institutional investing, while highlighting how actuarial training provides a strong foundation for understanding long-term financial risks.

The session will also include practical reflections on professional qualifications, the SOA exam journey, and how actuarial credentials compare with and complement the CFA Program for students interested in investment-related careers.
