

# AGENTIC AI IN ACTION — TEN CASE STUDIES @ KFUPM

As part of the kickoff meeting of the Agentic AI @ KFUPM community, ten speakers will show agentic AI at work in their own fields. The session spans the breadth of the university, covering institutional intelligence, business and finance, telecommunication, smart mobility and logistics, process safety, construction scheduling and cost estimating, multimodal healthcare, natural language processing, scientific discovery and lab automation, and building software systems.
